*Praise on Judgement Day. Background to the expectation of the Judgement Day in the letter to the Philippians:* The interest is in the importance held for the appreciation of God, His praise and His honour in Paul's expectation of the end-time, especially in the letter to the Philippians. The sporadic allusions based on the scenario consists in that the Christians or specifically the apostle before the throne of God with the heavenly hosts and the perfected ones receive public recognition. The model is the public tribute of municipal benefactors by a high-ranking official or even the Sovereign himself. In the background is the ancient system of euergetism.
